Thank you, yes I seen building 456 and this made sense.

I do see they scheduled all 3 locations for next week with our awesome driver James.

Also for clarification what is the PO you have for reference for the lamps/mercury devices and the elemental,

so I can make sure our records match.

Thanks again.

Fontanero and that entire complex has one EPA ID No. COD 000820407 associated with it. Within the complex is Building 456 W. Fontanero (for the Fire Dept. use). All material is located at Building 456 in the 404 W. Fontanero Complex. Is that as clear as mud?

Ann,

This is the description of contract 201718395:

Hazardous, Universal or PCB Waste Transportation/Disposal

So, I think that would cover all of that.

Thank you,

Lisa Halcomb

Hi Lisa,

Can I ask you about this e:mail below? Then I will respond to Yvette about address and PO #.

Thanks,

Ann

Hi.

Just had a couple questions.

Tim, when we spoke about the Generator site 404 W Fontanero, you said the address would be the same but you have

456 W Fontanero on the Service Request form.

Is this correct.

Also you have PO 201718395 for the lamps.

Ann do we need a different PO for your mercury devices and elemental mercury as I know you have a contract number.

Thank you.
